Subscription & Posting Information

Did we miss anything?

Our Podcast & Podcasting Business Center is the live, in-person version of InfoX. Both are intended as the key, go-to mechanism by which all 501c Startups, Entrepreneurs & Tax-Exempt Small Businesses access funding, resource, staff, training, merchant services & ALL other business assets they require, from peer-to-peer relationships, and transfer vital information unique to tax exempt business entities.

WEB PAGE HEADER/SECTION

This is what I was thinking as a standard setup for the profile landing page

Layout based on template (have several drafts) one might work for all, or maybe we can change up based on content to keep it interesting, given # of pics, logos, etc. You can decide and run with it. I think if we have long profiles, we should do a...*more* link and open to a plan but nicely framed webpage. And have a PDF link in case funders/donors see it, like them and want to capture the spotlights info.

START-UP HUB ZONE

Meet a new Tax Exempt Start-Up Each Month

Want Your Organization or Program To Be Featured Next... Click Here to Post or Subscribe!

The Learners Lab Foundation is Pleased to Introduce...

Startup Company/Program Name

(visitors can see portion of Profile but must subscribe & log in for complete access)

Visit: www.InfoXchg.org for a sneak preview!

Start-Up Listings

(visitors can see list but have to subscribe/log in to access info)

**Start-Up Listing 1 Name,
Location, Program/Charity
Description**
**Start-Up Listing 2 Name,
Location, Program/Charity
Description**
**Start-Up Listing 3 Name,
Location, Program/Charity
Description**

Featured Next Month

**Name of
Next Start-Up**

*With an image + some kind of snip-it
from their profile.*

WEB PAGE BODY: The body layout for each webpage should vary according to its content. Play around see what you like

1.1.1. that works for each page type. We should allow room on each post for those who want to include their company logo.

1.1.1. that works for each page type.

We should allow room on each post for those who want to include their company logo.

1.1.1. that works for each page type.

1.1.1. that works for each page type.

The Home Page image should be FLUSH LEFT & aligned with Title Bar/Title. CAN THIS BE MADE INTO A DROP-DOWN MENU? If so, this should have the same function as the homepage. So would be **NO NEED FOR A HOMEPPG LINK.**

WEB PAGE HEADER/SECTION
 This is what I was thinking as a standard setup for each webpage header & the section headers
 The body can be adjusted based on the content

Feel free to move the Monthly Archive section around as you see fit, it does not have to be in this very spot. I just placed it here for this example.

Monthly Archives

- October 2016
- Sept 2016
- August 2016

Unless otherwise noted, this "Monthly Archives subsection should be on every page, except the Homepg, About Us, Contacts, Archives, & Thank-You Page

WEB PAGE BODY: The body layout for each webpage should vary according to its content. Play around see what you like that works for each page type. This works for this content but

might not for Grant Announcements, or the sponsor page, etc. We should allow room on each post for those who want to include their company logo.
